WAIMEA COMMUNITY DAM PROJECT

INTERESTS SCHEDULE

TASMAN DISTRICT COUNCIL

December 2017

Explanatory Note:

Elected members must make a general declaration of interests annually and as soon as practicable after becoming aware of any new interests. These declarations are recorded in an Interests Register maintained by Council. This is available on the Tasman District Council website.

Council has recognised that, where there are significant decisions facing Elected Members, for instance, proposals that require a special consultative procedure, it is prudent to show how interests declared in the Interests Register may potentially be affected by what is proposed. This information is summarised in a separate Project Interests Schedule. This is not a legal requirement and is not an indication of whether Elected Members can be involved in decision-making on that particular matter, but it does provide transparency.

The proposed ownership, funding and governance options and consequential costs allocations for the Waimea Community Dam is one such instance where Council believes a separate Project Interests Schedule would be a useful document to sit alongside the existing information on the project.

The Waimea Community Dam Project Interest Schedule is shown on the following pages.

WAIMEA COMMUNITY DAM PROJECT INTERESTS SCHEDULE

How declared interests are potentially affected by the Waimea Community Dam proposed costs allocation:	Property Subject to District Wide Contribution	Property in the Zone of Benefit (see attached)	Property connected to Urban Water	Property in Irrigable Area.
