Dear Annie

REQUEST FOR OFFICIAL INFORMATION

Thank you for your request for official information dated 11 May 2018, regarding earthworks undertaken at 9 Boyes Crescent. In particular you have requested the following information:

- ***“I would like to know please the details of the earthworks on that site – the volume, the area, the height of any cuts and fill, and the proximity to boundaries. This information is required by Council, as you know, before a consent is given.”***

As previously advised by QLDC, an earthworks consent was not sought or granted for the house at 9 Boyes Crescent; accordingly we do not believe we hold the information you have requested.

QLDC decided it was not expedient to pursue enforcement action for the unconsented earthworks as the work had been completed and was not creating adverse effects on the environment. The uncertified fill was removed and replaced with certified fill. A surveyor's certificate shows the house was built exactly where it was consented, meaning the ground levels have not changed.

We trust this response satisfactorily answers your request.

Kind regards

Jesse Taylor
