Here is a proposal to start with. I am sure we can choose what level we like them involved

[REDACTED]

ps I see [REDACTED] in the audience

(See attached file: *Oil & Gas Sitrep 22 Oct.pdf*)

Hi [REDACTED] end of the day so you probably won't take a peek until Monday but please see attached our proposal and some examples of the oil & gas situation report which goes out weekly to our clients currently. We would create a similar report for GNS but project focused.

As mention I think it would be great to kick you guys off on this in November to cover this season especially with SLB's survey and your planned consultation.

Speak next week and enjoy the weekend

Hi [REDACTED] yep certainly am and thanks for the follow up. A combination of getting the PGS Apollo out and SLB's survey and a long weekend got me a little off track

I'll have the proposal to you later today and in the meantime please see the link to the Elephant in the room consultation in Dunedin <https://www.youtube.com/watch?v=3zuu-NwiF-Q> that I mentioned. It was never going to go well and a good example on why not to hold these public meetings and instead hold an information week at venue and allow people to walk through and ask questions to prevent a flash point.

I also spoke to [REDACTED] and they said they had caught up with your CEO and [REDACTED] so that's a good start on the community consultation front for

the East Coast. As mentioned they have a depth of experience and we have worked closely together over the years

Speak soon

Thanks that's great – all very cloak and dagger. Give me a buzz on my cell phone from the MBIE reception area and I'll spot you

I'll flick you a invite now

Cheers

Hi [REDACTED],

A little after 11 would work with me (say 11. 15 in the MBIE Cafe). How do I find you?

Hi [REDACTED] if possible could we meet in Wellington this Wednesday at 11am at MBIE in their café?

I am meeting there with regards to a couple of survey's and then a midday at DPMC so that would work really well

Cheers and I hope it works. Alternative is 1pm same day in Wellington.

Speak soon

Hi guys can I touch base with one of you guys re this drilling operation please – with this season seismic and work we are doing around that there will be some lap over for your planned upcoming operation.

Thanks

Hi █ or █ just checking in and it's a bit early but the Greenpeace Esperanza is in Cape Town current as is the Joides Resolution – these guys like to do some planning, so be interesting if they pay any attention to the vessel by way of a recce.

Look forward to hearing from the best contact between you guys moving forward.

Cheers

Hi █
I do not have anything to do with the IODP but have forwarded your email to a couple of my colleagues who may be able to comment on this more authoritatively.
Regards █

Hi [REDACTED] I am not sure if we have met at many of the Advantage Conference over the year or not – but we work for 90% of the oil and gas industry here in New Zealand as well as a few of the CRI's such as AgResearch and Plant and Food.

With last week's announcement some of our issue motivated groups have picked up on it, including the snippet by intelligence analyst found below

Over the past 13 years we have worked for a lot of organisations who are either currently or have been in the sights of issue motivated groups and have developed some mitigation strategies and tactics which may assist your planned operation.

We are a Security Risk Management company and I attached our profile for your attention and can provide numerous CEO's details as referees if required.

Could I suggest we arrange a time to meet up and see how we can help you out with this planned project as we believe regardless of its primary goal it will be a target.

I look forward to hearing from you

Regards
