Hi Craig

Thanks for your help with the surf / recreation portal so far.

As mentioned, we have been working on getting a prototype ready for feedback, along with some survey questions.

The prototype has more locations on it than you mentioned below but this is not necessarily what we will go with – the developers just said that it is easier to design for more locations and we will have the ability to 'turn them on and off'.

I would appreciate it if you could take 5 – 10 minutes to complete this survey and have a look at the prototype so far.

Also, are you able to send this on to a wider group of surfers? Or send me some contacts and I can do it at my end?

Thanks heaps!
