Service: Street Cleaning

Classification: Request for Service

Subject: Road and channel

Enquiry Ref: R[67/5281].....

Desc.: The bike lane on Victoria st from Vivian to Abel Smith St has a bunch of rubble in it, especially outside the Counter Culture bar. Ive mentioned this before and was assured that this was hand swept after a regular sweep of the road. From what it looks like and has in the past, it looks like its build up of many days of sweeping the road which just sweeps it to the side of the road aka the cycle lane. Bit of a shame as the council was adamant that the contractors definitely hand swept this area regularly, but it appears not. Im also not sure if your auditing process checks cycle ways at all, or just roadways. Would be great to see the council look out for cycle road users more given the first issue above was an oversight on cyclists.

Site: Victoria St (R1590), Te Aro, Wgtn

Site Address: Victoria St

Location: Victoria St, Te Aro

Area: Te Aro
