Subject: RE: DHB SUDI Local Plans

Kia ora Pip,

Thank you for your time today - it was good to talk through your plan and to hear some of the feedback about what's happening at Lakes DHB. Based on your plan and our conversation, we are happy to accept your local plan and wish you all the best for implementing it.

I'm really interested in the safe sleep device data that is collected by Change for Our Children - could you please send me a copy of the latest data or send me their contact details so I can ask them if possible?

I have talked to Tony about the Lakes DHB tobacco services and he has asked me to send the standard response. The Ministry of Health is currently reviewing all its 2018/2019 purchasing intentions, the demands on its budget and alignment with Government priorities. Once that work is completed, the Ministry will be in a position to communicate its intentions going forward, including in relation to public health."

Subject: DHB SUDI Local Plans

Kia ora tatou,

At our weekly teleconference yesterday with the regional SUDI coordinators, it was suggested that some DHBs were not intending to submit an updated local plan (based on the template and local guidance document that was sent by Gen on 22 February) because they had already submitted this information based on the previous costings template.

If you are not intending to submit an updated plan, I would like to arrange a separate teleconference with each of you asap with the intention of using the information you provided in the costings template to sign off your plans. The teleconference will likely involve clarifying some of the activities that were proposed in your costings template.

In the interests of DHBs being able to utilise SUDI 2017/8 funding, we want to sign off all of the local plans by 14 March so could you please get back to me asap.

If you are intending to submit an updated local plan by 9 March, I look forward to receiving them.

Nga mihi

Subject: Re: Lakes Q1 report

Hi Leigh,

Everything is going well thanks, hows everything going from you end in welly, good I hope.

Yes, you are right, regardless of any changes to their contract, the DHB provider arm is still responsible to maintain their DHB Performance targets. Also, this target has been around for so many years now that it should actually be embedded in their everyday practice anyhow.

Hope this helps.

Cheers

Leigh Sturgiss Hey Tony How's things? Here's Lakes... 30/10/2018 09:19:09 a.m.

From: Leigh Sturgiss/MOH
To: Tony Brown/MOH@MOH,
Date: 30/10/2018 09:19 a.m.
Subject: Lakes Q1 report

Hey Tony

How's things? Here's Lakes Q1 PP31 report .. they keep on referring to:

The ending of the former Ministry of Health and Lakes DHB tobacco control contrac and increasing acute demands was expected to affect this quarters results and this has been borne out by the most recent data. The smoking cessation service Tipu Ora have been asked to provide some specific smoking cessation services in the hospital environment but this arrangement has not been able to replicated the results Lakes DHB has produced in the past thus far.

My understanding is that they chose to terminate this contract, is that right? I really want to respond to them saying that regardless of their staffing, this is a DHB performance measure and they are expected to meet the 95%.. Have you anything to add?

Thanks

2018/19 Better help for smokers to quit quarterly reporting template - Hosp

DHB please select from the drop down box
 Reporting Quarter please select from the drop down box

Results

	Events Coded	No. of people who smoke	No. of people given advice /support	Smoking rate	st
ALL	6521	1143	99300.0%	17.5%	
Māori	2096	651	56800.0%	31.1%	
Pacific	133	35	29.0%	26.3%	

Name and contact details of person completing the report

Please answer ALL of the questions below

Are the DHB's results based on 'patients discharged' or 'discharges coded'?	Discharges coded	What percentage of the DHB's discharges for this quarter have been coded?	100
What support is given to help patients who smoke to quit before discharge? Please note any changes, innovations.	Best practice support is given including encouragement to use the standard array of NRT. DHB smokefree team ending their service we have requested our clinicians provide initial requested the smoking cessation provider provide a referral system directly to the service provider to work in the hospital as part of the transition.		
If the DHB's result for this quarter are below 95%, for any of "All", "Māori" and/or "Pacific" people, if "Pacific" numbers are sufficient, please explain why.	There have been changes to the way smoking resources are used in Lakes and this see performance at the 'coal face'. Lakes DHB no longer has a dedicated internal smoking cessation service. Identified the areas where secondary services had previously relied upon this resource.		
Please identify what activities the DHB has undertaken this quarter to support this target?	The ceasing of the Lakes DHB's internal smoking cessation service means there is no internal service directed at smoking cessation.		
Are there any barriers impeding the DHB's ability to reach the 95% target next quarter? If so, please explain what mitigation strategies have been/will be put in place?	Staff movements and new arrangements and approaches to the way in which smoking resources reduce performance in this area of activity. The ending of the former Ministry of Health and increasing acute demands was expected to affect this quarter's results and this has been reflected in the data. The smoking cessation service Tipu Ora have been asked to provide some specific support.		
Does the DHB believe that its target result will be sustainable after 30 June 2018? If not, please explain what mitigation strategies have been/will be put in place?	The results for Lakes have declined over recent quarters as staffing arrangements have been signalled to be utilised elsewhere. Strategies are yet to be developed to deal with these changes. Results are predicted to further decline in the short to medium term.		
Please note anything else you would like the Ministry to be aware of.	Nil

Hi Veronica,

Sorry for not getting back to you yesterday. The Lakes DHB still have a contract with the Ministry, however, it was agreed that they would be using a different and integrated approach to this contract in terms of working towards achieving the health priorities and more of a wellbeing approach. This approach will also help inform us in terms of possible future direction in terms of alignment. I have spoken to Karen about the commentary regarding targets not being achieved and I understand that she will be addressing this with her provider arm today or tomorrow as these targets should still continue to be maintained.

Cheers

Subject: Re: Lakes DHB and smokefree coordinator role (maternity health target)

Hi Veronica,

You are correct, this should not be affecting their target as it is still our expectation that the hospital targets remain and that the processes around maintaining the target should be well and truly embedded into their everyday approach given the number of years this has been maintained. Regardless of the change of the contract, this process should still be continuing.

I will also raise this again with Karen Evison in regards to the Ministry's expectation around these targets, however, I think this may be directed more towards the DHB provider arm.

Thanks

Subject: Lakes DHB and smokefree coordinator role (maternity health target)

Hi Tony

I understand that you've already heard from Leigh about Lakes DHB's hospital narrative report, where they stated that losing the smokefree coordinator role has had an impact on the hospital measure. I've also received the same information in the maternity target narrative report, where Lakes stated that losing the SF coordinator role has impacted on their failure to meet the target.

In Lakes DHB's feedback I will state that staffing issues shouldn't be having an impact on the target, and there is Ministry expectation that the target be met and maintained. Leigh and I are also raising this issue with the DHB Relationship Manager for Lakes for them to raise at the next DHB meeting (MIF).
