Dear Graham Hansen

OFFICIAL INFORMATION ACT REQUEST

I refer to your official information request on 2 January 2018 relating to customary fishing permits. You specifically requested:

- *Information on the total number of customary permits issued by area in the North Island from 2010 to the present day.*
- *The species requested on each permit.*
- *The quantity of each species requested on the permit.*
- *The written minimum size limit of each species requested on the permit (not just the legal size).*
- *The reasons for the permits being issued.*

Under the Official Information Act 1982 (OIA) I am releasing a spreadsheet detailing the total number of customary permits issued by Tangata Kaitiaki/Tiaki and provided to Fisheries New Zealand for North Island fishing areas since 2010. The table is divided into the following columns:

- Fisheries Management Area rohe moana within
- Species Code
- Species Name
- Number of authorisations issued
- Quantity approved
- Unit of measure

The information is taken from summary returns submitted under the Fisheries (Kaimoana Customary Fishing) Regulations 1998 and, permits received by Fisheries New Zealand under the Fisheries (Amateur Fishing) Regulations 2013. Neither of these legislation require the number of permits issued to be submitted to Fisheries New Zealand. Therefore the number of authorisations issued in the attached data, are not a true reflection of the number of permits issued in total.

The written minimum size limit on each permit and the reason for the permit being issued are not always received or databased. To search through our archives and identify which paper records contain this information would constitute as substantial collation and research. Accordingly, this part of your request is refused under section 18(f) of the OIA.

You have the right under section 28(3) of the OIA to seek an investigation and review by the Ombudsman of our decision to refuse information.

Yours sincerely
