Hi Soon,

The response letter was sent to Hugh this morning however he has requested the **Cycling Aspects of Austroads Guides**.

Can you please forward the PDF and I can send this to Hugh. Otherwise he would need to register on the website.

Thanks
Ana

Hi Ana,
Please find attached the information on the Standards, Regulations and Best Practice which are applied in NZ by traffic signals practitioners.
Thanks for your assistance.

Hi Soon,

Were you able to find the documents? His response letter is already to go and just need to attach the documents you refer to in the information if you have them.

Thanks
Ana

Hi Tim,
I am seeking your assistance on the additional information requests listed below from Ana.

Information from Council Cycle Team

[Austroads – “Cycling Aspects of Austroads Guides”](#)

Table 2.3: Bicycle network functions

Network	Movement and place type	Network function	Cyclist operating speed
Regional bicycle network ⁽¹⁾	Significant movement with some place aspects	High-quality, high-priority routes to permit quick, unhindered travel between the major regions of cities, towns or urban areas	25–40 km/h
Local bicycle routes	Some movement with some place aspects	High-quality routes with seamless connections to regional routes. These routes connect the local street system to the major regional routes	20–30 km/h
Mixed environments	Some movement with some place aspects	Low speed, low volume local access to residential destinations in a 'low stress' shared environment	< 20 km/h
	Significant movement with significant place aspects	Low speed, high volume access to key destinations (such as within a CBD) often shared with other users such as pedestrians and motorised vehicles	
	Some movement with significant place aspects	Low speed, high volume access to key destinations often used for other uses (e.g. strip shopping centre)	

Thanks.

Hi Soon,

One more thing, do we have any Council policies on the stopping distance and times of heavy vehicles?

Or do we only refer and comply with the Nationwide Accepted Standards and Regulations?

Thanks
Ana

Morning Soon,

I am reviewing the draft response letter to Hugh Davenport and I would like to know if you are able to send me the links:

- Cycling Aspects of Austroads Guides
- Nationwide Accepted Standards and Regulations
- Industry Best Practice

I want to include these as attachments.

Thanks
Ana
