District Commanders Instruction: Routine Carriage of Firearms – 28/02/2019 at 1620hrs

A review and risk assessment has been completed by the District Commander as to the routine carriage of firearms by Officers in the current circumstances. The priority is to keep staff and the community safe. Staff should always use TENR constantly and should be equipped and enabled to carry out their duties safely.

The instruction is the following-

- All Level one certified responders in primary response roles should be armed. To be clear, this includes PST, RP (STU and HWP), 1 ,2 ,3 Person Station Officers, Dog Sections and Airport Officers
- This is for the entire Canterbury District

- As per the FLINT products for persons or vehicles of interest for the current events, staff should not attempt to stop any target but notify Comm's immediately of the location of the vehicle/person to allow planned supported response.

Vehicles - certified responders in primary response roles are the priority for all vehicles fully equipped with firearms and tactical equipment.

The instruction as to routine carriage of firearms will be reviewed at 8am tomorrow or earlier if the circumstances change. Until staff are advised of any change formally, the current direction will remain.

Subject: Operation Couzins - District Commander Price statement

Kia ora Canterbury District Team

This week has been a massive week for you all and I want to especially thank Officers A,B,C,D & E for their deployment and response to the critical incident that occurred in Eveleyn Couzins Ave, Richmond. I totally support our officers and I remain honoured to work with people who come to work every day to keep our community safe from harm. As Police we ask our police team to do an incredible job every day and often police are the people that run towards danger when others run away. This brings with it a real danger and as your District Commander I am here to ensure that you will be safe and feel safe and to the very best of my ability ensure you are equipped and enabled to face these dangers.

This critical incident has created a lot of media interest and today I conducted a further media stand up to address the operational reasons why I have directed routine carriage of firearms for the Canterbury District.

The media statement is attached but in summary I want to ensure that our frontline staff responding to events are safe from harm.

Due to the possible risk associated with Treik ALLEN he is actively being sought and he may possibly be in possession of a firearm that may have been used to shoot at police. I have release his details to the media this afternoon with the hope he will turn himself in.

I do not take the routine carriage of firearms lightly and my absolute primary motive and concern will always be the safety of our people.

Kia ora Canterbury District Team.

Please refer to the release going out shortly to the media.

Thank you for your professionalism over the last week with the heighten risk relating to the shooting.

Through dedicated investigation work the offender ALLEN has been located and charged.

The safety of you, and the wider police team, is absolutely paramount to me and I thank you for understanding the situation and the risk. I know you have understood the increased risk environment. My purpose is always that we will all be safe and feel safe.

It is an awesome role that police play in the safety of our community. When we all step up in a heightened risk environment it heartens me to see us all work and support each other.

Keep doing the great work adding value in the lives of the many we serve.

The outstanding subject from the recent incidents involving an offender shooting at Police Officers in Christchurch has been located, interviewed and charged in relation to his involvement.

The risk to staff from this incident is no longer present and the requirement for routine carriage of firearms is removed. Staff are advised to return to their normal carriage of appointments and assessing risk through the TENR process.
